Spirits Distribution Intelligence

Real-time business clarity — a single dashboard that answers your daily questions before your first coffee.

About This Project

Capstone / proof-of-work project, inspired by real MIS requirements. All data is synthetic and programmatically generated; no real company data is used. The dashboard is designed to be immediately adapted to any distribution business.

What's Broken in Distribution Today?

🧩 Scattered Data

Multiple Excel files, manual merging, no single source of truth

⏳ Delayed Report

3-day old numbers by the time decisions are needed

🚫 Blind Spot

Can't see profit per outlet, brand margin leakage, or inventory risks

Decisions based on guesswork, not facts

Spirits

One Screen. Every Answer.

A Business Cockpit that tells you today's revenue, tomorrow's stock-out risk, and which outlet is bleeding — before your morning coffee.

📊 Daily MIS

- 📈 Brand Analysis
- 🏪 Outlet Intelligence
- 🚨 Inventory Alerts
- 📅 Trends

Fully interactive. No manual reporting

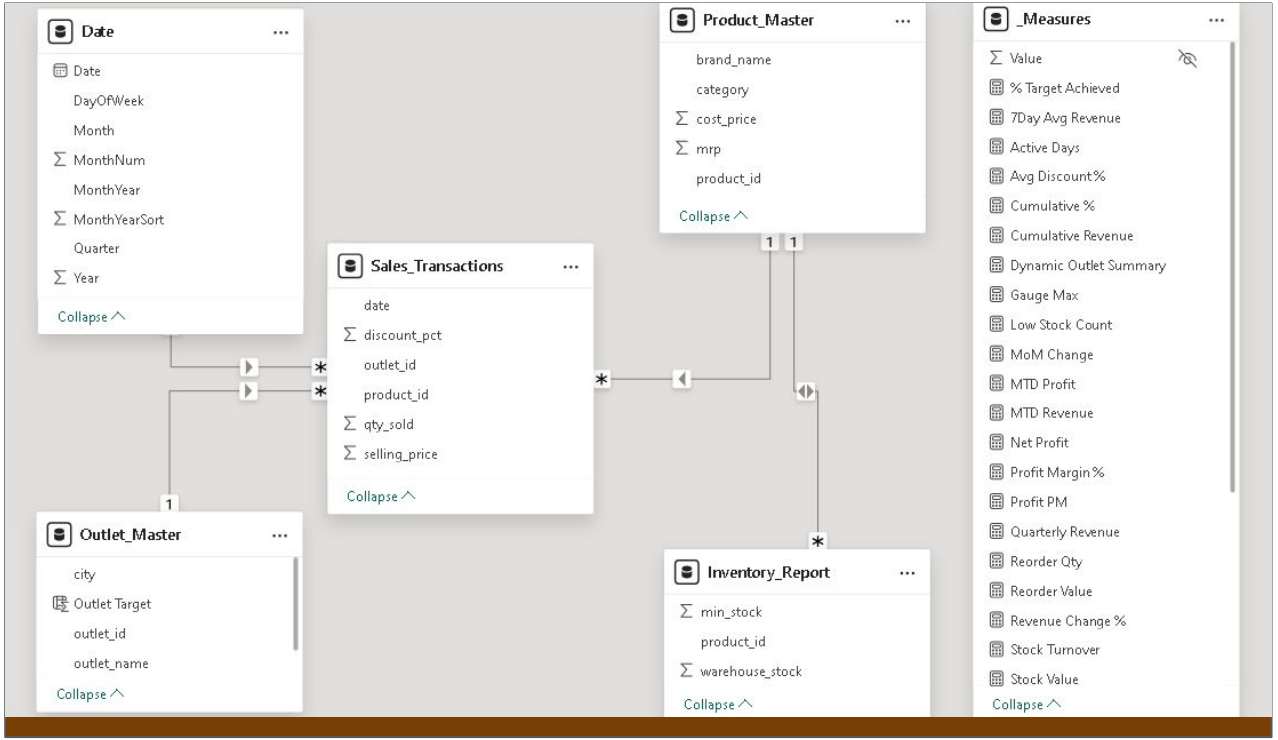
Behind the Scenes – A Solid Data Foundation



🧱 Star Schema Design

One central fact table (Sales Transactions) linked to four dimension tables (Products, Outlets, Date, Inventory).

✅ Why It Matters

Ensures 100% accuracy, fast dashboard updates, and easy maintenance when new data is added.

I don't just drag & drop charts. I build a reliable data engine underneath.
